DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 13 and 14 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for failing to claim method steps necessary to render the claim complete such as measuring a minimum driving voltage..., storing the driving voltage....., applying the stored voltage....., and performing a PWM control.....

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 15 and 16 are rejected under 35 U.S.C. 101 because they intend to embrace both product and process by their dependencies from independent claim 1; such claims are precluded by language of 35 USC 101, which sets forth statutory classes of invention in alternative only.

Claims 15 and 16 are also rejected under 35 U.S.C. 112, second paragraph, since claim which purports to be both product and process is ambiguous and therefore does not particularly point out and distinctly claim subject matter of the invention. Ex parte Lyell, 17 USPQ2d 1548.

Allowable Subject Matter

Claims 1-12 are allowed.

Claims 13 and 14 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
